

Valamis - Learning Experience Platform

Award-winning corporate eLearning software

Valamis - Learning Experience Platform is a flexible and easily scalable learning solution with powerful learning analytics. Valamis allows you to create engaging learning experiences, manage competencies, meet regulatory compliance, and more. We understand that training needs to support your business goals and offer you everything you need to stay ahead of competition.

Customize Valamis to fit your needs

Work together with our team of experts in fields ranging from: data science, digital learning, learning engagement, analytics, and user experience to build the learning solution that fits your company's needs. Our fast development cycles ensure that you get the features you need quickly. Valamis is a scalable solution that will evolve with your business.

Train with no boundaries

With Valamis you can share information and train your employees, customers, and partner networks quickly and efficiently. We understand that everyone learns differently and needs various competencies. Valamis enables personalized learning experiences for different individuals.

Measure and analyze learning

Valamis supports Experience API/xAPI and Learning Record Store (LRS) standards, which allow you to collect and store data on any type of experiences that learner does (online and offline). This will give you the ability to analyze, predict and improve the learning process, while providing ample opportunities for microlearning.

Introducing the features our customers have selected

By utilizing customer suggestions and feedback, Valamis is constantly improved to be the best possible learning experience platform. Comprehensive analytics, diverse learning processes, innovative content options, heightened security and flexibility have resulted in a new and improved version of Valamis inspired by our customers to meet the growing needs of their organizations.
